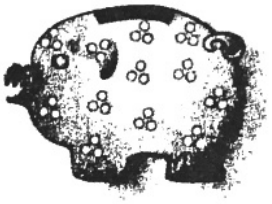
THINK 24 "In the Bank"

Problem: Anisa has four animal-shaped banks, each of a different color. She is saving up for four different things. Use the clues to determine what animal is which color bank, how much change is in each bank, and for what Anisa is saving.



Colors:	pink	blue	yellow	green
Animals:	pig	kitten	bunny	puppy
Amounts:	$5.74	$10.03	$3.17	$14.22
Purpose:	candy	a pet rat	a rainy day	a gift for her mom

Clues:

1. There is more in the blue bank than the yellow bank and less in the blue bank than the green bank.
2. Anisa saved more money for a rainy day than for candy.
3. The money for her pet rat is in the kitten bank.
4. There is $10.03 in the green puppy bank.
5. She keeps her candy money in her pig bank.
6. The bunny bank holds the most money.
7. Her kitten bank is blue.
8. The money for her mom's gift is not in the green bank.
9. The pig bank is not pink.
